[On the Farm](#) Dec 28 2022 Verteran investigative journalist Stevie Cameron first began following the story of missing women in 1998, when the odd newspaper piece appeared chronicling the disappearances of drug-addicted sex trade workers from Vancouver's notorious Downtown Eastside. It was not until February 2002 that pig farmer Robert William Pickton would be arrested, and 2008 before he was found guilty, on six counts of second-degree murder. These counts were appealed and in 2010, the Supreme Court of Canada rendered its conclusion. The guilty verdict was upheld, and finally this unprecedented tale of true crime could be told. Covering the case of one of North America's most prolific serial killers gave Stevie Cameron access not only to the story as it unfolded over many years in two British Columbia courthouses, but also to information unknown to the police - and not in the transcripts of their interviews with Pickton - such as from Pickton's long-time best friend, Lisa Yelds, and from several women who survived terrifying encounters with him. Cameron uncovers what was behind law enforcement's refusal to believe that a serial killer was at work.

[Over on the Farm](#) Jun 22 2022 Over on the farm in the early morning sun Lived a clever mother cat And her little cat one With bright animals and a simple rhyming text this is the perfect first counting book.

[Animal Farm](#) Dec 04 2020 All animals are equal but some animals are more equal than others. It's just an ordinary farm - until the animals revolt. They get rid of the irresponsible farmer. The other animals are sure that life is improving, but as systems are replaced and half-truths are retold, a new hierarchy emerges . . . Orwell's tale of propaganda, power and greed has never felt more pertinent. With an exciting new cover and inside illustrations by superstar Chris Mould.

[Who Grows Up on the Farm](#) Dec 24 2019 Moo! Oink, oink! Peep, peep! Honk! Find out what all the noise is about in this delightful book about baby farm animals.

The Farm as Natural Habitat Jun 29 2020 The Farm as Natural Habitat is a vital new contribution to the debate about agriculture and its impacts on the land. Arising from conviction that the agricultural landscape as a whole could be restored to a healthy diversity, the book challenges the notion that the dominant agricultural landscape -- bereft of its original vegetation and wildlife and despoiled by chemical runoff -- is inevitable if we are to feed ourselves. Contributors bring together insights and practice from the fields of conservation biology, sustainable agriculture, and environmental restoration to link agriculture and biodiversity, farming and nature, in celebrating a unique alternative to conventional agriculture. Rejecting the idea that "ecological sacrifice zones" are a necessary part of feeding a hungry world, the book offers compelling examples of an alternative agriculture that can produce not only healthful food, but fully functioning ecosystems and abundant populations of native species. Contributors include Collin Bode, George Boody, Brian DeVore, Arthur (Tex) Hawkins, Buddy Huffaker, Rhonda Janke, Richard Jefferson, Nick Jordan, Cheryl Miller, Heather Robertson, Carol Shennan, Judith Soule, Beth Waterhouse, and others. The Farm as Natural Habitat is both hopeful and visionary, grounded in real examples, and guided by a commitment to healthy land and thriving communities. It is the first book to offer a viable approach to addressing the challenges of protecting and restoring biodiversity on private agricultural land and is essential reading for anyone concerned with issues of land or biodiversity conservation, farming and agriculture, ecological restoration, or the health of rural communities and landscapes.

**Bet the Farm** Aug 24 2022 "Eloquent and detailed...It's hard to have hope, but the organized observations and plans of Hoffman and people like her give me some. Read her book -- and listen." -- Jane Smiley, *The Washington Post* In her late 40s, Beth Hoffman decided to upend her comfortable life as a professor and journalist to move to her husband's family ranch in Iowa--all for the dream of becoming a farmer. There was just one problem: money. Half of America's two million farms made less than \$300 in 2019, and many struggle just to stay afloat. *Bet the Farm* chronicles this struggle through Beth's eyes. She must contend with her father-in-law, who is reluctant to hand over control of the land. Growing oats is good for the environment but ends up being very bad for the wallet. And finding somewhere, in the midst of COVID-19, to slaughter grass finished beef is a nightmare. If Beth can't make it, how can farmers who confront racism, lack access to land, or don't have other jobs to fall back on hack it? *Bet the Farm* is a first-hand account of the perils of farming today and a personal exploration of more just and sustainable ways of producing food.

**Happy on the Farm** Feb 24 2020 All the animals try to figure out why Farmer Lyle is so happy today as he goes about his chores.

The Farm Bill Aug 12 2021 "Daniel Imhoffs recently-published The Farm Bill: A Citizens Guide [is] a welcome and much-needed source for translating farm bill legalese ... [it is] a thorough and navigable history of the farm bill ... [that] hands readers the tools to take action." Foodprint "Dan Imhoff does an extraordinary job of explaining an impenetrable bill with such clarity that we can't ignore the facts: that our current Farm Bill profoundly damages our organic farms, our environment, and our health. Just as extraordinary are the practical solutions Imhoff proposes for fixing the bill--humane policies that would support regenerative agriculture and our local farmers instead of tearing them down." Alice Waters, Executive Chef, Founder, and Owner, Chez Panisse "Cuts to the core of dozens of issues Congress wrestles with every four years, and gives citizens sage advice for making their voices heard in a debate too often dominated by Big Ag, Big Food, and Big Money." Ken Cook, President and Cofounder, Environmental Working Group "A must-read for those who truly care about how they feed themselves and their families." Michel Nischan, Founder and CEO, Wholesome Wave "Readers will gain deep insight into the big barriers to Farm Bill reform, but also into the ripening opportunities for major change. Imhoff makes a strong case for why should care and what it will take to transform policy." Ferd Hoefner, Strategic Senior Advisor, National Sustainable Agriculture Coalition "Dan Imhoff is the go-to person if you want to know both details and the full sweep of the Farm Bill." Wes Jackson, President Emeritus, The Land Institute.

**On the Farm** Feb 18 2022 A collection of moving and soulful portraits of beloved farm animals, alongside surprising facts, entertaining anecdotes, and captivating histories of these heritage breeds on American farms. "The beauty and breadth of heritage animal breeds is on full display in this delightful and gorgeous book."—Isabella Rossellini, actress and author of *My Chickens* and *I Animal Lovers*, homesteaders, eco-conscious consumers, and fans of beautiful photography alike will cherish the charm of *On the Farm's* stunning portraits and stories. With over 150 photographs, renowned animal photographer Aliza Eliazarov invites us to take a closer look at the animal breeds taking center stage in the regenerative farming movement. Along with fun facts about the domesticated animals who have shaped and changed our world—goats, sheep, cows, horses, donkeys, llamas, alpacas, pigs, chickens, turkeys, ducks, geese, and farm dogs—*On the Farm* features sometimes quirky, sometimes harrowing personal tales of amazing animals. Meet Bilbo, the donkey in love with truck tires; Kurt, the diminutive Angora goat with a miraculous birth story; and Princess Peppermint, an anxious pig with a taste for cocktails. The focus on rare and heritage breeds will enlighten and inform you about the astonishing variety of livestock and poultry, as well as the impact that loss of this biodiversity is having on global food security. Equal parts fine art and field guide, shot entirely on location at small farms and homesteads, *On the Farm* delivers us to the pastoral with an enjoyable meditation on the animals that civilization has grown alongside.

**Fostering on the Farm** Dec 16 2021 From 1870 until after World War I, reformers led an effort to place children from orphanages, asylums, and children's homes with farming families. The farmers received free labor in return for providing room and board. Reformers, meanwhile, believed children learned lessons in family life, citizenry, and work habits that institutions simply could not provide. Drawing on institution records, correspondence from children and placement families, and state reports, Megan Birk scrutinizes how the farm system developed--and how the children involved may have become some of America's last indentured laborers. Between 1850 and 1900, up to one-third of farm homes contained children from outside the family. Birk reveals how the nostalgia attached to misplaced perceptions about healthy, family-

based labor masked the realities of abuse, overwork, and loveless upbringings endemic in the system. She also considers how rural people cared for their own children while being bombarded with dependents from elsewhere. Finally, Birk traces how the ills associated with rural placement eventually forced reformers to transition to a system of paid foster care, adoptions, and family preservation.
