In this exceptional cultural history, Atlantic Senior Editor Ronald Brownstein—"one of America's best political journalists (The Economist)—tells the kaleidoscopic story of one monumental year that marked the city of Los Angeles' creative peak, a glittering moment when popular culture was ahead of politics in predicting what America would become. Los Angeles in 1974 exerted more influence over popular culture than any other city in America. Los Angeles that year, in fact, dominated popular culture more than it ever had before, or would again. Working in film, recording, and television studios around Sunset Boulevard, living in Brentwood and Beverly Hills or amid the flickering lights of the Hollywood Hills, a cluster of transformative talents produced an explosion in popular culture which reflected the demographic, social, and cultural realities of a changing America. At a time when Richard Nixon won two presidential elections with a message of backlash against the social changes unleashed by the sixties, popular culture was ahead of politics in predicting what America would become. The early 1970s in Los Angeles was the time and the place where conservatives definitively lost the battle to control popular culture. Rock Me on the Water traces the confluence of movies, music, television, and politics in Los Angeles month by month through that transformative, magical year. Ronald Brownstein reveals how 1974 represented a confrontation between a massive younger generation intent on change, and a political order rooted in the status quo. Today, we are again witnessing a generational cultural divide. Brownstein shows how the voices resistant to change may win the political battle for a time, but they cannot hold back the future. WINNER OF THE COSTA FIRST NOVEL AWARD A NATIONAL BOOK FOUNDATION 5 UNDER 35 WINNER OF THE BRITISH BOOK AWARD FOR DEBUT FICTION "Open Water is tender poetry, a love song to Black art and thought, an exploration of intimacy and vulnerability between two young artists learning to be soft with each other in a world that hardens against Black people."—Yaa Gyasi, author of Homegoing In a crowded London pub, two young people meet. Both are Black British, both won scholarships to private schools where they struggled to belong, both are now artists—he a photographer, she a dancer—and both are trying to make their mark in a world that by turns celebrates and rejects them. Tentatively, tenderly, they fall in love. But two people who seem destined to be together can still be torn apart by fear and violence, and over the course of a year they find their relationship tested by forces beyond their control. Narrated with deep intimacy, Open Water is at once an achingly beautiful love story and a potent insight into race and masculinity that asks what it means to be a person in a world that sees you only as a Black body; to be vulnerable when you are only respected for strength; to find safety in love, only to lose it. With gorgeous, soulful intensity, and blistering emotional intelligence, Caleb Azumah Nelson gives a profoundly sensitive portrait of romantic love in all its feverish waves and comforting beauty. This is one of the most essential debut novels of recent years, heralding the arrival of a stellar and prodigious young talent. Daniels' Orchestral Music is the gold standard reference for conductors, music programmers, librarians, and any other music professional researching an orchestral program. This sixth edition, celebrating the fiftieth anniversary of the original work, includes over 14,000 entries with a vast number of new listings and updates. From Buddy Holly and the Crickets to the Flatlanders, Terry Allen, and Natalie Maines, Lubbock, Texas, has produced songwriters, musicians, and artists as prolifically as cotton, conservatives, and windstorms. While nobody questions where the conservatives come from in a city that a recent nonpartisan study ranked as America's second most conservative, many people wonder why Lubbock is such fertile ground for creative spirits who want to expand the boundaries of thought in music and art. Is it just that "there's nothing else to do," as some have suggested, or is there something in the character of Lubbock that encourages creativity as much as conservatism? In this book, Christopher Oglesby interviews twenty-five musicians and artists with ties to Lubbock to discover what it is about this community and West Texas in general that feeds the creative spirit. Their answers are revealing. Some speak of the need to rebel against conventional attitudes that threaten to limit their horizons. Others, such as Joe Ely, praise the freedom of mind they find on the wide open plains. "There is this empty desolation that I could fill if I picked up a pen and wrote, or picked up a guitar and played," he says. Still others express skepticism about how much Lubbock as a place contributes to the success of its musicians. Jimmie Dale Gilmore says, "I think there is a large measure of this Lubbock phenomenon that is just luck, and that is the part that you cannot explain." As a whole, the interviews create a portrait not only of Lubbock's musicians and artists, but also of the musical community that has sustained them, including venues such as the legendary Cotton Club and the original Stubb's Barbecue. This kaleidoscopic portrait of the West Texas music scene gets to the heart of what it takes to create art in an isolated, often inhospitable environment. As Oglesby says, "Necessity is the mother of creation. Lubbock needed beauty, poetry, humor, and it needed to get up and shake its communal ass a bit or go mad from loneliness and boredom; so Lubbock created the amazing likes of Jimmie Dale Gilmore, Butch Hancock, Terry Allen, and Joe Ely." Water / Music embraces and celebrates life's mystery and the soul's repose amid "talismans at twilight, the whirl of birds." "A spare, poetic picture book exploring the different phases of the water cycle in surprising and engaging ways"-- An inspirational collection of photographs explores a theme of the connection between water and the rhythms of human life and is complemented by a range of memoirs, stories, poetry, music, and lyrics by more than sixty of the world's most renowned musicians. (Performing Arts) This text explores the music making that went on in the spas and watering places in Europe and the United States during their heyday between the early-18th and the mid-20th centuries. Contributions from Christopher G. Bakriges, Sean Creighton, Jeffrey Green, Leighton Grist, Bob Groom, Rainer E. Lotz, Paul Oliver, Catherine Parsonage, Iris Schmeisser, Roberta Freund Schwartz, Robert Springer, Rupert Till, Guido van Rijn, David Webster, Jen Wilson, and Neil A. Wynn This unique collection of essays examines the flow of African American music and musicians across the Atlantic to Europe from the time of slavery to the twentieth century. In a sweeping examination of different musical forms--spirituals, blues, jazz, skiffle, and orchestral music--the contributors consider the reception and influence of black music on a number of different European audiences, particularly in Britain, but also France, Germany, and the Netherlands. The essayists approach the subject through diverse historical, musicological, and philosophical perspectives. A number of essays document little-known performances and recordings of African American musicians in Europe. Several pieces, including one by Paul Oliver, focus on the appeal of the blues to British listeners. At the same time, these considerations often reveal the ambiguous nature of European responses to black music and in so doing add to our knowledge of transatlantic race relations. In this collection of essays and interviews, nine gifted composers openly discuss their work. A study of Handel's best-known public music: Water Music, and Music for the Royal Fireworks. Christopher Grieve, writing under the name of Hugh MacDiarmid, was a major modern poet and founder of the Scottish literary Renaissance. In this study of his poetry, John Baglow eliminates what has been a stumbling block for most MacDiarmid scholars by showing the very real thematic and psychological consistency which underlines MacDiarmid's work. He demonstrates the extent to which the work was dominated by a desire to find a faith that could justify his desire to write poetry, a desire continually thwarted by a critical intellect which destroyed whatever faith he was able to construct. This constant search without a successful conclusion is at the heart of the work of many major modernist writers; MacDiarmid's poetry can be seen as embracing this tradition and making it explicit. The first of two volumes chronicling the history and role of music in the African American experience, Nothing but Love in God's Water explores how songs and singers helped African Americans challenge and overcome slavery, subjugation, and suppression. From the spirituals of southern fields and the ringing chords of black gospel to the protest songs that changed the landscape of labor and the cadences sung before dogs and water cannons in Birmingham, sacred song has stood center stage in the African American drama. Myriad interviews, one-of-a-kind sources, and rare or lost recordings are used to examine this enormously persuasive facet of the movement. Nothing but Love in God's Water explains the historical significance of song and helps us understand how music enabled the civil rights movement to challenge the most powerful nation on the planet. "Macon, Georgia's history has an exceptional soundtrack, and Something in the Water provides a lively narrative of the city's musical past from its founding in 1823 to 1980. For generations, talented musicians have been born in or passed through Macon's confines. Some lived and died in obscurity, while others achieved international stardom. From its pioneer origins to the modern era, the city has produced waves of talent with amazing consistency, representing a wide range of musical genres-country, classical, jazz, blues, big band, soul, and rock. As the book points out, the city's influence stretches far beyond the borders of Georgia, and its musical imprint on the United States and the world is significant. The story of music in Macon includes a vast, eclectic cast of characters, such as the city's first music "celebrity" Sidney Lanier, entertainment entrepreneur Charles Douglass, jazz age divas Lucille Hegamin and Lula Whidby, big band singers Betty Barclay and the Pickens Sisters, rock and roll founding father Little Richard Penniman, rhythm and blues icons James Brown and Otis Redding, local country star Eugene "Uncle Ned" Stripling, Capricorn Records founders Phil Walden and Frank Fenter, and the Allman Brothers Band, one of the most popular groups of the rock era. The book also offers a treatment of Macon's leading entertainment venues, both past and present, like Ralston Hall, the Grand Opera House, and the Douglass Theater, along with local institutions such as Wesleyan College and the Georgia Academy for the Blind, both of which trained generations of music students"--
