The suspenseful and emotion-filled second book in the Rayne series begins where the first book ended...with a dying man whispering four stunning words into Shaley O'Connor's ear. Should she believe him? After two murders on the Rayne concert tour, Shaley is reeling. But she has no time to rest. If the dying man's claim is right, the danger is far from over. Shaley's quest for the truth leads to the mysterious and wrenching past of her mother and father. Could what happened to them so many years ago threaten Shaley's life now? A journey to the most extreme points on Earth and deep inside the human spirit Before Georgetown physics professor Francis Slakey decided to climb the highest mountain on every continent and surf every ocean, he had shut himself off from other people. His lectures were mechanical; his relationships were little more than ways to fill the evenings. But as his journey veered dangerously off course, everything about him began to change. A gripping adventure of the body and mind, **To the Last Breath** depicts the quest that leads Slakey around the globe, almost takes his life, challenges his fiercely held beliefs, and opens his heart. The scientist in Slakey explores the history of Robert Falcon Scott's doomed Antarctica expedition, the technology of climbing, and the geophysics of waves. But it is the challenges he endures and the people he encounters—a Lama who gives him a mysterious amulet, a life-or-death choice atop Everest, an ambush at gunpoint in Indonesia, a head-on collision in the high desert—that culminate in a moving lesson about what it means to be human. The next day she was dead. The local medical examiner could not determine the cause of little Renee's death. But her mother Annette and grandmother Sharon were convinced she'd been murdered--and that they knew the identity of Renee's killer: her handsome father, Shane Goode, a manipulative, emotionally abusive man who displayed virtually no interest in Renee--until he took out a \$50,000 insurance policy on her life. With the help of a courageous female police investigator and Assistant DA, Sharon launched a case against Shane and had Renee's tiny coffin, lovingly filled with her favorite stuffed animals, exhumed from its final resting place. And her small corpse revealed what her grandmother had suspected all along: cold, calculating Shane Goode had murdered his own daughter to cash in on her death. To the Last Breath is the winner of the 1999 Edgar Award for Best Fact Crime. Corruption in the

education system and pitiable political situations are some of the subjects in this anthology of twenty stories which are thought-provoking as well as very true to the present day life in the north-eastern part of India. Stories like "The Rival", "The Woman" give a deep insight into the world of women. Human relationships are dealt with in a very subtle and intense manner in stories like "Expectations", "The Labourer from Bihar". "Siblings", "Fear" and "Waiting for the Last Breath." Last Breath is a psychological thriller with multiple twists and turns, that takes place in rural Pennsylvania and Maryland (Waterdrum and Cumberland Gap, respectively), Sherry Moore, a blind woman who can see the last 18 seconds of someone's life if given the chance to hold their hand, is called upon by both the police and FBI when bodies of victims are found hanging in a meat freezer in Cumberland, MD (They were abducted from a tree-lined parking lot of an office in Hagerstown, MD). When Sherry describes their killer as sexually violent, and seen through a mask, the police realize they were wrong to assume it had been two juveniles who later died in a car explosion while trying to abduct a fourth victim: the killer is still on the loose... ONE LAST BREATH is book two in the new FBI mystery series by debut author Sarah Sutton. A popular beach town was torn apart when a teenage girl went missing. Now, one year later, after a storm rips through the area, her body is found—strangled and buried deep under the brush of a local beach. But, as the cops uncover her body, another is found—a more recent victim—and they quickly realize it's the work of a serial killer. FBI Agent Tara Mills, still recovering from her last case, is pulled into her second. With no leads, the FBI needs Tara's brilliant mind to crack it. But as she delves into the depths of the popular vacation beach town, she soon realizes that no one can be trusted—and that this killer may be far more brilliant than her. Meanwhile, Tara has decided to uncover the truth of her own past. As she battles the darkness surrounding her childhood, more victims go missing, and with her career on the line, she races against time to stop the killer before she loses it all. Book #3 in the series—ONE LAST UNVEIL—is also now available for pre-order! Sudden, extreme deaths have always fascinated us-- and now more than ever as athletes and travelers rise to the challenges of high-risk sports and journeys on the edge. In this spellbinding book, veteran travel and outdoor sports writer Peter Stark reenacts the dramas of what happens inside our bodies, our minds, and our souls when we push ourselves to the absolute limits of human endurance. Combining the adrenaline high of extreme sports with the startling facts of physiological reality, Stark narrates a series of outdoor adventure stories in which thrill can cross the line to mortal peril. Each death or brush with death is at once a suspense story, a cautionary tale, and a medical thriller. Stark describes in unforgettable detail exactly what goes through the mind of a cross-country skier as his body temperature plummets-- apathy at ninety-one degrees, stupor at ninety. He puts us inside the body of a doomed kayaker tumbling helplessly underwater for two minutes, five minutes, ten minutes. He conjures up the physiology of a snowboarder frantically trying not to panic as he consumes the tiny pocket of air trapped around his face under thousands of pounds of snow. These are among the dire situations that Stark transforms into harrowing accounts of how our bodies react to trauma, how reflexes and instinct compel us to fight back, and how, why, and when we let go of our will to live. In an increasingly tamed and homogenized world, risk is not only a means of escape but a path to spirituality. As Peter Stark writes, "You must try to understand death intimately and prepare yourself for death in order to live a full and

satisfying life." In this fascinating, informative book, Stark reveals exactly what we're getting ourselves into when we choose to live-- and die-- at the extremes of endurance. " - Publishers Weekly At Leizer Bart's funeral, one of the mourners told his son Michael that the gravestone should include a reference to the Freedom Fighters of Nekamah, to honor his late father's involvement in the Jewish resistance movement in Vilna (now Vilnius), Lithuania, at the end of World War II. Michael had never heard his parents referenced as Freedom Fighters. Following his father's death, and with his mother in failing health, Michael embarked on a ten-year research project to find out more details about his parents' time in the Vilna ghetto, where they met,

fell in love, and married, and about their activities as members of the Jewish resistance. *Until Our Last Breath* is the culmination of his research, and his parents' story of love and survival is seamlessly tied into the collective story of the Vilna ghetto, the partisans of Vilna, and the wider themes of world history. Zenia, Bart's mother, was born and raised in Vilna. Leizer fled there to escape the Nazi invasion of his hometown of Hrubieshov in Poland. They were married by one of the last remaining rabbis ninety days before the liquidation of the ghetto. Leizer was friends with Zionist leader Abba Kovner and became a member of the Vilna ghetto underground. Shortly before the total liquidation of the ghetto, Zenia and Leizer, along with about 120 members of the underground, were able to escape to the Rudnicki forest, about 25 miles away. They became part of the Jewish partisan fighting group led by Abba Kovner—known as the Avengers—which carried out sabotage missions against the Nazi army and eventually participated in the liberation of Vilna. *Until Our Last Breath* is intensely personal and painstakingly researched, a lasting memorial to the Jews of Vilna, including the resistance fighters and the author's family. "Joanne Jacobson's *Every Last Breath* "follows" two chronic illnesses that grew unexpectedly intertwined when her writing about her mother's respiratory illness was interrupted by her own diagnosis with a rare blood disorder. Rejecting the fixed, retrospective point of view and the forward-moving narrative trajectory of conventional memoir, the essays of *Every Last Breath* immerse the reader in the emotionally raw present of illness-confronting potentially fatal illness and "end-of-life" while both are still, emphatically, life"-- Student Claire Danvers learns that three vampires have vanished without a trace. And after an uneasy encounter with Morgantown's latest resident, Claire is certain that the mysterious Magnus isn't human. But is he a vampire-or something else entirely? One thing is clear: Magnus is to blame for the disappearances. And if vampires are turning into victims, what chance does a human like Claire have of stopping him? From the bestselling author of *One Small Sacrifice* comes a suspenseful thriller about a dead woman who predicted her own murder--and the sister who won't let the truth be buried. When her beloved sister Caroline dies suddenly, Deirdre is heartbroken. Long used to being a pariah to her family, Deirdre covers her tattoos and heads to Manhattan for her sister's funeral. The message claimed Caroline's husband, Theo, killed his first wife and got away with it. Reeling from the news, Deirdre confronts Theo on the way to the cemetery, and he reveals both his temper and his suspicion that Deirdre's "perfect" sister was having an affair. Paranoid and armed with just enough information to make her dangerous, Deirdre digs into the disturbing secrets buried with Caroline. But as she gets closer to the truth, she realizes that her own life may be at risk...and that there may be more than one killer in the family. NAMED A BEST BOOK OF 2017 BY NPR "For anyone facing dementia, [Saunders'] words are truly enlightening.... Inspiring lessons about living and thriving with dementia."---Maria Shriver, NBC's Today Show A "courageous and singular book" (Andrew Solomon), Memory's Last Breath is an unsparing, beautifully written memoir--"an intimate, revealing account of living with dementia" (Shelf Awareness). Based on the "field notes" she keeps in her journal, Memory's Last Breath is Gerda Saunders' astonishing window into a life distorted by dementia. She writes about shopping trips cut short by unintentional shoplifting, car journeys derailed when she loses her bearings, and the embarrassment of forgetting what she has just said to a room of colleagues. Coping with the complications of losing short-term memory, Saunders, a former university professor, nonetheless embarks on a personal investigation of the brain and its mysteries, examining science and literature, and immersing herself in vivid memories of her childhood in South Africa. He's an ex-cop. She's an ex-wife. And they're both out for revenge on the same man.... When pampered former cheerleader Feenie Malone takes a job writing fluff pieces for her South Texas paper, she has no idea she's about to stumble into a juicy news story that could launch her career -- if it doesn't get her killed first. Almost as soon as she breaks out her press pass, she crosses paths with Marco Juarez, the macho PI obsessed with solving his sister's murder. The information he has might be the perfect lead -- but his dangerously sexy looks could be a deadly distraction. Juarez has zero patience for reporters, especially mouthy blond ones. But with the evidence pointing to Feenie's ex-husband, Marco thinks she could be useful. Confident he can keep her on a tight leash, he lets her in on his investigation. He quickly discovers he's underestimated his new partner, as well as the danger they both face. Now he must protect her -- to the very last breath.... When her father, who was imprisoned for killing her stepmother, comes home to die of cancer, humanitarian aid worker Gia Andrews, responsible for his care, is torn between the stories she grew up believing and the truth, while dealing with death threats, protestors and her attraction to a local bartender. Original. The Guardian's Best Science Book of 2017: the fascinating science and history of the air we breathe. It's invisible. It's ever-present. Without it, you would die in minutes. And it has an epic story to tell. In *Caesar's Last Breath*, New York Times bestselling author Sam Kean takes us on a journey through the periodic table, around the globe, and across time to tell the story of the air we breathe, which, it turns out, is also the story of earth and our existence on it. With every breath, you literally inhale the history of the world. On the ides of March, 44 BC, Julius Caesar died of stab wounds on the Senate floor, but the story of his last breath is still unfolding; in fact, you're probably inhaling some of it now. Of the sextillions of molecules entering or leaving your lungs at this moment, some might well bear traces of Cleopatra's perfumes, German mustard gas, particles exhaled by dinosaurs or emitted by atomic bombs, even remnants of stardust from the universe's creation. Tracing the origins and ingredients of our atmosphere, Kean reveals how the alchemy of air reshaped our continents, steered human progress, powered revolutions, and continues to influence everything we do. Along the way, we'll swim with radioactive pigs, witness the most important chemical reactions humans have discovered, and join the crowd at the Moulin Rouge for some of the crudest performance art of all time. Lively, witty, and filled with the astounding science of ordinary life, *Caesar's Last Breath* illuminates the science stories swirling around us every second.
